**Tips for spring cleaning
your closet, Part 1**

- Pull everything out of your closet to take inventory
- Make "throw away," "donate," and "repair/alter" piles
- As you put items back in your closet, sort by item type to keep things organized
- Make a list of the gaps in your closet so you can shop smarter

**A quick tip for letting go of
clothing in your closet**

If you don't wear an item (or multiple items) in your closet, think about how donating it to someone else will bring joy to them and new life to the clothing item!

It does no one any good sitting unused in the back of your closet, so donating or gifting or selling will give that item new life.
